

Assessments

School Readiness Assessment

Both parents and educators are united in wanting children to have the most favourable experience possible when they start formal schooling, to set them up with a positive approach to their future education.

Fabic has designed a unique holistic assessment program which provides parents and educators with a greater understanding of a child's level of intellectual functioning and their learning style to assist in creating a learning environment that best meets their needs.

The ideal time to conduct the assessment is when the child is five to seven years old, when possible prior to starting formal schooling.

Purpose

To provide a greater understanding of a child's level of intellectual functioning and their learning style.

Outcome

A formal report which aids understanding how a child experiences the world and how to best support them to adapt to the school environment, learn new skills and meet their full potential.

What's involved?

The School Readiness Assessment consists of:

- An initial interview with a significant carer (*face-to-face, by phone or Skype*)
- 7 sessions at Fabic (in-clinic) to conduct the assessments
- 1 x observation of the child in one of their natural settings (school environment)
- A detailed report focussing on the student's strengths, weaknesses and our recommendations
- A feedback session with a significant carer to review the information in the report

Tests administered:

- Weschler Preschool & Primary Scale of Intelligence (WPPSI)
- Weschler Individual Achievement Test (WIAT)
- Peabody Picture Vocabulary Test – 4th edition (PPVT-4)

How long?

It takes about four weeks from the first meeting until you receive the final report.

Where?

The meetings take place at our Fabic office in Carrara, whether face-to-face, via telephone or Skype consultation. We also observe the person in the school environment where the behaviour occurs. The cost of observations depends on how far it is from the Fabic office (*more than 15 minutes from FABIC incurs additional travel cost*).

What it costs?

Assessments and report writing are a standard rate of \$180 per 50 mins. On-site assessments are \$240 for the first 50 minutes and \$180 for any subsequent time. On-site assessments also incur a travel fee of \$0.74 per kilometre from Fabic return. **Quotes offered to address each individual situation.**
