

Australian Counselling Association National Conference

Tanya Curtis

Date:

September 2013

Presentation:

An Introduction to the importance of meeting a client for who they are

Abstract:

Fabric founder and Senior Behaviour Specialist Tanya Curtis speaks at the Australian Counselling Association 2013 conference on the importance of meeting the client for the awesome, amazing, lovable person that is within and not identifying them with their behaviours

In her presentation, Tanya highlights the importance of a dedicated approach to ongoing personal development for all practitioners working in the fields of Psychology, Counselling and Behaviour Management. As Tanya suggests to all carers whom she works with in her clinical practice: *"We must prioritise our own well-being before we are able to truly support another."*
